

Código: MG-3	<b>QUALITY POLICY</b>	Edición: 5	Fecha: 11/06/21
--------------	-----------------------	------------	-----------------

The Management and all the staff of TECNOLOGÍA & VITAMINAS, S.L. agree to promote and maintain the following items aimed at improving the efficiency of the system, the quality and safety of the products manufactured and the image and reputation of the company.

- The main objective of TECNOLOGÍA & VITAMINAS, S.L. is to permanently increase the level of satisfaction of our customers by offering products and services that always meet their needs.
- The Management is committed to ensuring the quality and food safety of the products it manufactures, to providing the organisation with the necessary resources to achieve this and to optimising the application, monitoring, validation, and verification of the HACCP (Hazard Analysis of Critical Control Points) plan. To achieve this, the company sets quality objectives every year, which are reviewed quarterly at Management Committee meetings.
- The company has all the necessary information on food safety (from raw materials and their suppliers to the finished products of each customer). This information is available to the legal and regulatory authorities. Furthermore, good traceability can be ensured throughout the food chain.
- The company has mechanisms in place to promote internal and external communication.
- The company has an action plan to combat Feed fraud and Feed defense in its products and facilities.
- The company is committed to continuous improvement in terms of the integral sustainability of the food industry, in its social, environmental, and economic dimensions: The company constantly invests and works to improve its integral sustainability status.
- The latest versions of the ISO 22000 and FAMI-QS food safety management systems implemented in TECNOLOGÍA & VITAMINAS, S.L. have the full support of the Management, which is committed to ensuring that they work properly and to encouraging participation and teamwork, to achieve the established objectives and continuously improve the effectiveness of the system.
